

Name DEEPAK SHARMA

ID Patient 0036921

Age 8Y10M Sex M

Referred by DR A THAKRE MBBS MD
Specimen EDTA WHOLE BLOOD

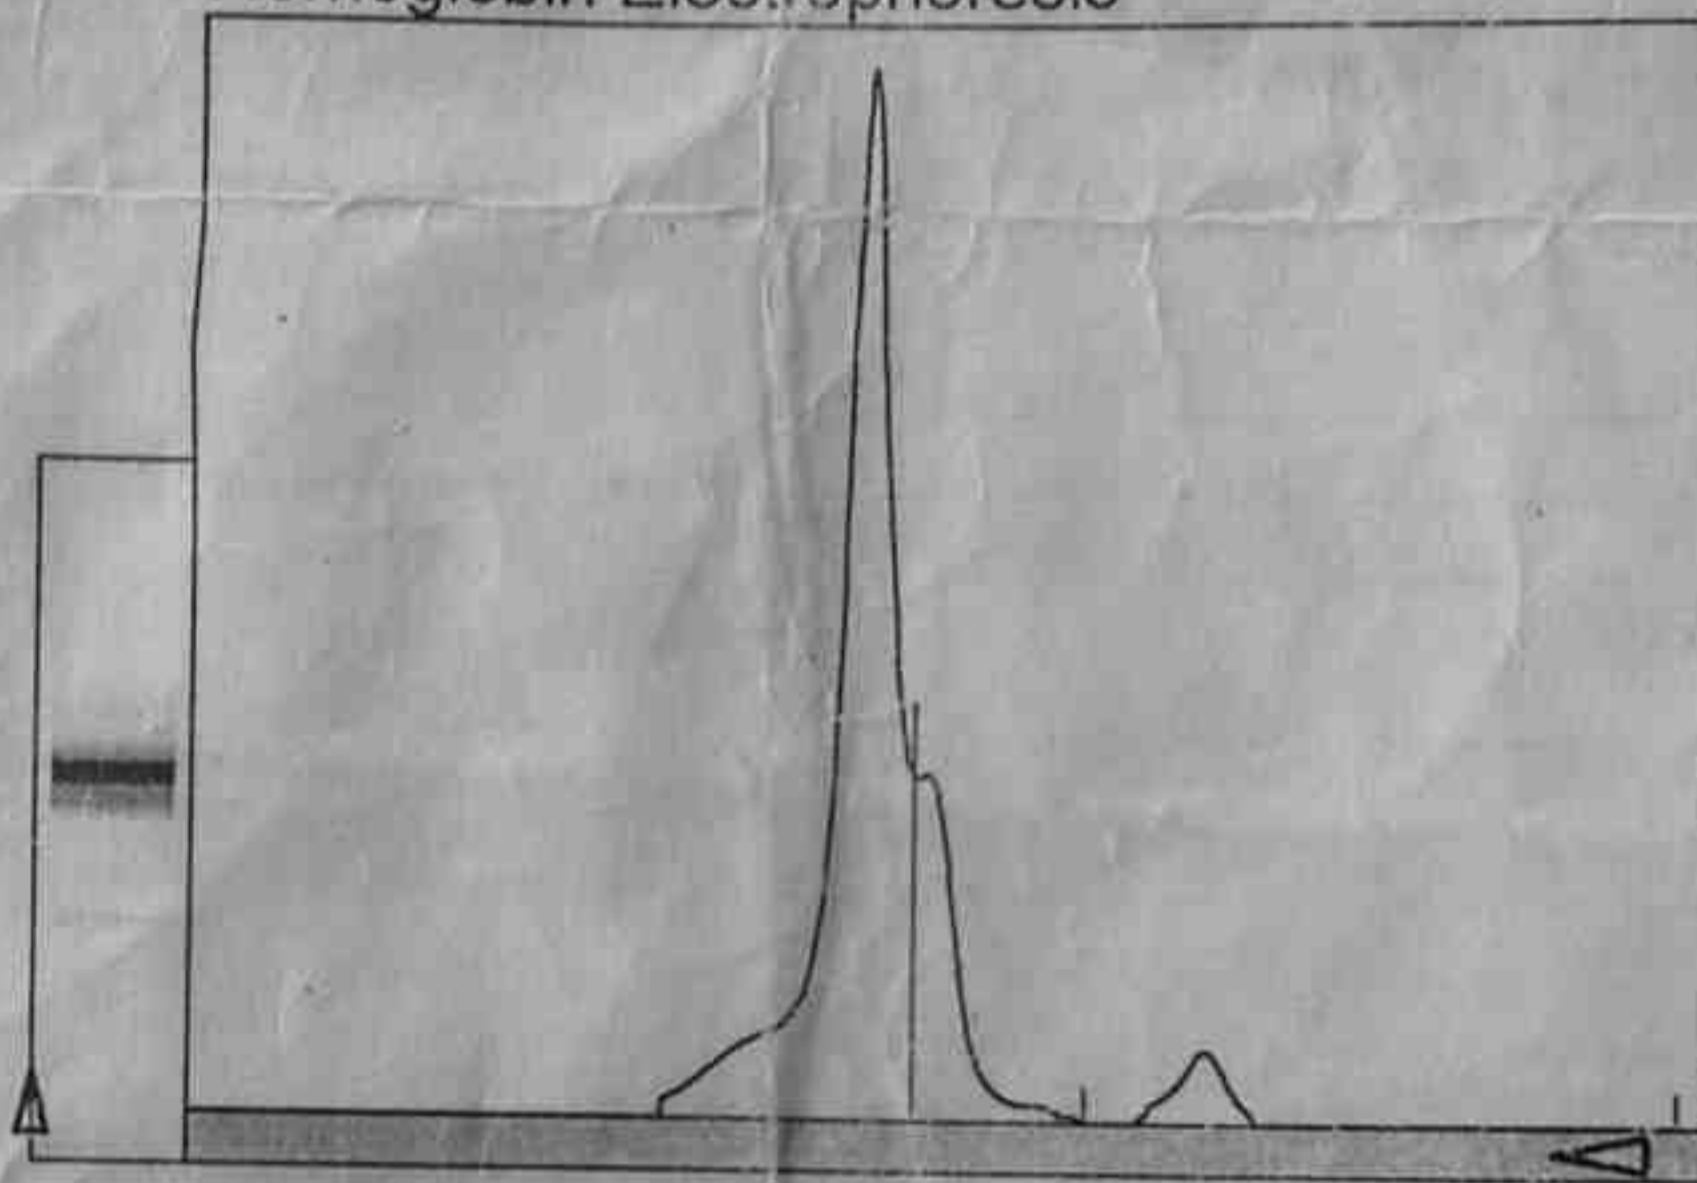

Lab code 220810816/MAH03
Bar code C9593050

Test Date 23/08/2011

Strip 1 Trace 8

Fractions 3 Scan(mm) 51

Hemoglobin Electrophoresis

Fractions	%	% Normal
HbA	76.8 ↓	94.3-98.5
HbF	18.5 ↑	0.2- 2.0
HbA2	4.7 ↑	1.5- 3.5

Comment The HbF and HbA2 values are high. which are suggestive of Beta-thalassemia. However, it is recommended to correlate with parental and clinical history. (Test method: Cellulose acetate electrophoresis)
